Double-sided printing is preferred except for required attachments numbers 1 through 18 of this IFB, which must be printed single-sided. - iii. Bids must be submitted for the performance of all the services described herein. Any deviation from the work specifications will not be considered and shall cause a bid to be rejected.

- iv. A bid shall be rejected if it is conditional or incomplete, or if it contains any alterations of form or other irregularities of any kind. The DSH may reject any or all bids and may waive an immaterial deviation in a bid. The DSH's waiver of an immaterial defect shall in no way modify the IFB document or excuse the bidder from full compliance with all requirements if awarded the agreement.
- v. Before submitting a response to this solicitation, bidders should review, correct all errors, and confirm compliance with the IFB requirements.
- vi. Where applicable, bidders must carefully examine work sites and specifications. Bidders shall investigate conditions, character, and quality of surface or subsurface materials or obstacles that might be encountered. No additions or increases to the agreement amount will be made due to a lack of careful examination of work sites and specifications.

- ii. Costs for developing bids in anticipation of award of the agreement are entirely the responsibilities of the bidder and shall not be charged to the State of California.

- ii. The DSH reserves the right to reject all bids. The DSH is not required to award an agreement.

- iii. The DSH does not accept alternate contract language from a prospective contractor, unless offered through the Question-and-Answer period. A bid with alternate contract language will be considered a counter proposal and will be rejected. The DSH's terms and conditions are not negotiable. Bidders are hereby advised that proposals of alternate contract language or attempts to negotiate the DSH's Terms and Conditions after the selection of a proposed awardee shall be considered a counter proposal for the purposes of this solicitation. In such a situation, the DSH shall notify the proposed awardee that they must accept the DSH's language and terms as offered or be disqualified from being awarded a contract. Should a contractor fail to accept the language and terms offered, the DSH shall disqualify that vendor and award the contract to the next lowest bidder after issuing a revised Letter of Intent, if applicable.

IV. BID EVALUATION AND AWARD

A. Review of Bid Requirements:

1. At the time of the bid opening, each bid will be opened, read aloud, and checked for preference and incentive requests.

B. Responsiveness and Responsibility Determination:

1. After the bid opening, the DSH will evaluate each bid to determine its responsiveness and each bidder's responsibility to the published requirements of this IFB.
2. A responsive bidder is one who submits a bid that meets all of the submission requirements and minimum qualification requirements stated in the IFB. A responsible bidder is one that is trustworthy and possesses the necessary quality, fitness and capacity to satisfactorily perform the proposed work. Bidders who are determined to not be responsible or who submit non-responsive bids shall have their bids rejected.
3. Responsive bids shall be considered evidence of the proposer's responsibility. The DSH reserves the right to reevaluate a bidder's responsibility prior to award and is in no way limited to submitted bid packages in making a determination as to a bidder's responsibility. In determining whether a bidder is responsible, the DSH may require bidders to submit further evidence of their qualifications at such times, and under such conditions, as it may require.

C. False Statements Disclaimer:

1. Bids that contain false or misleading statements, or which provide references which do not support an attribute or condition claimed by the bidder, may be rejected.

D. Intention to Award:

1. The DSH intends, if an award is made, to award to the lowest responsive responsible bidder in accordance with Section V, Preference and Incentive Programs.

E. Tie Breaker:

1. Should two or more bidders submit bids that, after the calculation of preferences as described in Section V, Preference and Incentive Programs, result in a tie, the DSH shall resolve the tie as follows:
 - i. In accordance with Government Code section 14838, subdivision (f), in the event of a precise tie between a small business or microbusiness, and a disabled veteran-owned small business or microbusiness, the agreement shall be awarded to the disabled veteran-owned small business or microbusiness.
 - ii. In accordance with the California Code of Regulations, title 2, section 1896.6, if, after the application of the small business preference, the bid of the small business is equal to the lowest priced bid from a responsible non-small business, the agreement shall be awarded to the small business.
 - iii. In all other circumstances a coin toss witnessed by two DSH admin staff shall determine the proposed awardee.

F. Disposition of Bids:

1. Upon bid opening, all documents submitted in response to this IFB will become the property of the State of California and will be regarded as public records under the California Public Records Act (Government Code section 6250, et seq.) and subject to review by the public. Should a bidder desire to keep any or all components of their response to this IFB confidential, the bidder would need to obtain a protective order from a court of competent jurisdiction.

G. Tax Delinquency Disclaimer:

1. Pursuant to the Public Contract Code section 10295.4, persons or companies identified as the largest tax delinquents by the Franchise Tax Board (FTB) or the California Department of Tax and Fee Administration (CDTFA) are ineligible to enter into any agreement with the state for non-IT goods or services. Any agreement entered into in violation of section 10295.4 is void and unenforceable.

Prior to executing any state agreement or renewal for non-IT goods or services, the DSH shall verify that the proposed awardee(s) is not on a prohibited list by checking both the FTB and CDTFA websites. The established lists can be found at:

- i. **FTB:** <https://www.ftb.ca.gov/about-ftb/newsroom/top-500-past-due-balances/corporate-income-tax-list.html>
- ii. **CDTFA:** <https://www.cdtfa.ca.gov/taxes-and-fees/top500.htm>

V. PREFERENCE AND INCENTIVE PROGRAMS

A. Small Business Preference:

1. In accordance with Government Code section 14838.5, et seq. and California Code of Regulations, title 2, section 1896, et seq., a five (5) percent preference will be granted to bidders properly certified as a California Small Business (SB), Microbusiness (MB), or Non-Small Business (NSB) with a Small Business subcontracting for a minimum of 25% of the bid amount. A five (5) percent preference will be granted to bidders certified as a Non-Profit Veteran Service Agency in accordance with the Military and Veterans Code section 999.50. Applications must be on file at the Office of Small Business and Disabled Veteran Business Enterprise Certification by 5:00 p.m. on bid opening day. The preference adjustment for awards based on low price cannot exceed \$50,000.00.
2. Small Business Preference Example (Single Award):

	Bidder A	Bidder B	Bidder C
Bidder Status	NSB	NSB w/ 25%	SB
Preference Applicable?		X	X
Original Bid Amount	\$100,000	\$105,000	\$102,500
Apparent Low Bid	X		
Pref. Amount (5% of Low Bidder)	\$0	\$5,000	\$5,000
Revised Bid	\$100,000	\$100,000	\$97,500
Revised Lowest Bidder			X

3. Explanation of Example:

The lowest bidder at the time of bid opening is Bidder A, which is a NSB not claiming a SB subcontracting preference. Since both Bidder B and Bidder C claim a SB Preference, five (5) percent of Bidder A's bid is subtracted from those of Bidder B and C. In the example above, five (5) percent of \$100,000 is \$5,000. After applying these preferences, Bidder C's revised bid (\$97,500) is less than the other bids, making them the revised apparent low bidder.

Note: since the preferences are used only for computation purposes to determine the successful bidder, if an agreement was awarded to Bidder C, it would be at the original \$102,500 amount.

B. Disabled Veteran Business Enterprise Program and Incentive:

1. The DSH hereby waives the mandatory Disabled Veteran Business Enterprise (DVBE) participation requirement for this IFB.

Confirmed DVBE Participation	DVBE Incentive
7% and above	5%

6% to 6.99%	4%
5% to 5.99%	3%
4% to 4.99%	2%
3.01% to 3.99%	1%
0% -3%	No incentive – minimum 3% participation required

4. An incentive for bidders who include DVBE participation is available and encouraged for this IFB. For evaluation purposes only, DSH shall apply an incentive to bids that include California certified DVBE participation and confirmed by the DSH. The incentive amount will vary in conjunction with the percentage of DVBE participation in accordance with the following formula:

DVBE Incentive Participation	DVBE Incentive
5% or Over	5%
4% to 4.99% Inclusive	4%
3% to 3.99% Inclusive	3%
2% to 2.99% Inclusive	2%
1% to 1.99% Inclusive	1%

5. The net bid price of responsive bids with DVBE participation will be reduced (for evaluation purposes only) by the amount of DVBE incentive as applied to the lowest responsive net bid price. If the #1 ranked, responsive, responsible bid is a California certified small business, the only bidders eligible for the incentive will be other California certified small businesses. The incentive adjustment for awards based on low price cannot exceed 5% or \$50,000.00, whichever is less, of the #1 ranked net bid price. When used in combination with a Small Business preference adjustment, the cumulative adjustment amount cannot exceed \$100,000.00.
6. Information submitted by the bidder to claim the DVBE incentive will be verified by the DSH. Only the DVBEs who shall perform a commercially useful function relevant to the Scope of Work included in this IFB may be used to qualify the bidder for a DVBE incentive. **All DVBE bidders and their proposed subcontractors must submit a copy of the DVBE Declarations Form (Std. 843). See Attachment 14.**
7. Disabled Veteran Business Enterprise Incentive Example (Single Award):

	Bidder A	Bidder B	Bidder C
Bidder Status	NSB	NSB w/ 3%	DVBE
Incentive Applicable?		X	X
Original Bid Amount	\$100,000	\$105,000	\$102,500
Apparent Low Bid	X		
Incentive Qualified		3%	5%
Incent. Amount (% of Low Bidder)	\$0	\$3,000	\$5,000
Revised Bid	\$100,000	\$102,000	\$97,500
Revised Lowest Bidder			X

8. Explanation of Example:

The lowest bidder at the time of bid opening is Bidder A, which is a NSB not claiming a DVBE subcontracting incentive. Bidder B claims (and qualifies for) a DVBE incentive of three (3) percent. Bidder C is a DVBE, which qualifies them for a five (5) percent incentive. To apply the incentive, three (3) percent of Bidder A's bid is subtracted from Bidder B's bid, resulting in a revised bid of \$102,000. Five (5) percent of Bidder A's bid is subtracted from Bidder C's bid, resulting in a revised bid of \$97,500. After applying the incentives, Bidder C's revised bid (\$97,500) is less than the other bids, making them the revised apparent low bidder.

Note: since the preferences are used only for computation purposes to determine the successful bidder, if an agreement was awarded to Bidder C, it would be at the original \$102,500 amount.

C. Calculation of Multiple Preferences:

1. In the event that bidders qualify for the SB preference and/or the DVBE incentive, the SB preference shall be calculated first. In circumstances where the DSH will award a single agreement as a result of this solicitation, in accordance with Government Code section 14838, subdivision (f), the DVBE incentive will not be calculated if, after the application of the SB preference, an SB bidder is the apparent low bidder unless another SB bidder is also a DVBE or has subcontracted with DVBE firms.

Note: in accordance with Government Code section 14838, subdivision (f), in the event of a precise tie between a small business or microbusiness, and a disabled veteran-owned small business or microbusiness, the agreement shall be awarded to the disabled veteran-owned small business or microbusiness.

2. Example of the Calculation of Multiple Preferences:

	Bidder A	Bidder B	Bidder C	Bidder D
Bidder Status	NSB	NSB w/ 25%	DVBE	SB
SB Pref. Applicable?		X		X
Original Bid Amount	\$100,000	\$105,500	\$103,000	\$106,000

Revised Bid	\$100,000	\$100,500	\$103,000	\$101,000
Revised Lowest Bidder	X			
DVBE Incentive Applicable?			X	
Incentive Qualified			5%	
Incent. Amt. (% of Low Bid)	\$0	\$0	\$5,000	\$0
Revised Bid	\$100,000	\$100,500	\$98,000	\$101,000
Revised Lowest Bidder			X	

D. Other Preference Programs:

1. Additional preference programs exist and may be applicable. Specifically, the Target Area Contract Preference Act (TACPA). For information regarding these programs please see the following website: <https://www.dgs.ca.gov/PD/Services/Page-Content/Procurement-Division-Services-List-Folder/Request-Target-Area-Contract-Preference?search=tacpa>.

E. Additional Small Business and Disabled Veteran Enterprise Information:

1. Adherence to the DVBE Requirements:
 - i. Failure of Contractor to seek substitution and adhere to the DVBE participation level identified in the bid or offer may be cause for agreement termination, recovery of damages under rights and remedies due to the State, and penalties as outlined in Military & Veterans Code section 999.9; Public Contract Code section 10115.10 or Public Contract Code section 4110 (applies to public works only). Contractor must immediately notify the DSH's SB/DVBE Advocate that the substitution of a DVBE subcontractor is requested.
 - ii. Failure of Contractor to adhere to the certification requirements of Military and Veterans Code section 999.5, subdivision (d) may be used as evidence of the bidder's non-responsibility in future solicitations.

2. Commercially Useful Function (CUF) Disclaimer

Each certified SB/MB or DVBE must perform a commercially useful function. Bidders who are found to not be performing a CUF will have their bids deemed non-responsive. A SB/MB or DVBE is deemed to perform a commercially useful function when the business does all of the following:

- i. Is responsible for the execution of a distinct element of the work of the agreement.
- ii. Carries out its obligation by actually performing, managing, or supervising the work involved.
- iii. Performs work that is normal for its business services and functions.
- iv. Is responsible, with respect to products, inventories, materials, and supplies required for the agreement, for negotiating price, determining quality and quantity, ordering, installing, if applicable, and making payment.
- v. Is not further subcontracting a portion of the work that is greater than that expected to be subcontracted by normal industry practices.

Agreements resulting from this solicitation shall afterwards be monitored for compliance with CUF for the duration of the agreement.

Attachment 1 Contractor Data Security Standards

1. General Security Controls

- A. **Confidentiality Statement.** All persons that will be working with DSH PCI must sign a confidentiality statement. The statement must include at a minimum, General Use, Security and Privacy safeguards, Unacceptable Use, and Enforcement Policies. The statement must be signed by the workforce member prior to access to DSH PCI. The statement must be renewed annually. The Contractor shall retain each person's written confidentiality statement for DSH inspection for a period of three (3) years following contract termination.
- B. **Background check.** Before a member of the Contractor's workforce may access DSH PCI, Contractor must conduct a thorough background check of that worker and evaluate the results to assure that there is no indication that the worker may present a risk for theft of confidential data. The Contractor shall retain each workforce member's background check documentation for a period of three (3) years following contract termination.
- C. **Workstation/Laptop encryption.** All workstations and laptops that process and/or store DSH PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. The encryption solution must be full disk unless approved by the DSH Information Security Office.
- D. **Server Security.** Servers containing unencrypted DSH PCI must have sufficient administrative, physical, and technical controls in place to protect that data, based upon a risk assessment/system security review.
- E. **Minimum Necessary.** Only the minimum necessary amount of DSH PCI required to perform necessary business functions may be copied, downloaded, or exported.
- F. **Removable media devices.** All electronic files that contain DSH PCI data must be encrypted when stored on any removable media or portable device (i.e. USB thumb drives, floppies, CD/DVD, smart devices tapes etc.). PCI must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher
- G. **Antivirus software.** All workstations, laptops and other systems that process and/or store DSH PCI must install and actively use a comprehensive anti-virus software solution with automatic updates scheduled at least daily.
- H. **Patch Management.** All workstations, laptops and other systems that process and/or store DSH PCI must have operating system and application security patches applied, with system reboot if necessary. There must be a documented patch management process which determines installation timeframe based on risk assessment and vendor recommendations. At a maximum, all applicable patches must be installed within 30 days of vendor release.

- I. **User IDs and Password Controls.** All users must be issued a unique user name for accessing DSH PCI. Username must be promptly disabled, deleted, or the password changed upon the transfer or termination of an employee with knowledge of the password. Passwords are not to be shared. Must be at least eight characters. Must be a non-dictionary word. Must not be stored in readable format on the computer. Must be changed every 60 days. Must be changed if revealed or compromised. Must be composed of characters from at least three of the following four groups from the standard keyboard:
 - Upper case letters (A-Z)
 - Lower case letters (a-z)
 - Arabic numerals (0-9)
 - Non-alphanumeric characters (punctuation symbols)
- J. **Data Sanitization.** All DSH PCI must be sanitized using NIST Special Publication 800-88 standard methods for data sanitization when the DSH PCI is no longer needed.

2. System Security Controls

- A. **System Timeout.** The system must provide an automatic timeout, requiring reauthentication of the user session after no more than 20 minutes of inactivity.
- B. **Warning Banners.** All systems containing DSH PCI must display a warning banner each time a user attempts access, stating that data is confidential, systems are logged, and system use is for business purposes only. User must be directed to log off the system if they do not agree with these requirements.
- C. **System Logging.** The system must maintain an automated audit trail which can identify the user or system process which initiates a request for DSH PCI, or which alters DSH PCI. The audit trail must be date and time stamped, must log both successful and failed accesses, must be read only, and must be restricted to authorized users. This logging must be included for all user privilege levels including, but not limited to, systems administrators. If DSH PCI is stored in a database, database logging functionality must be enabled. Audit trail data must be archived for at least 3 years after occurrence.
- D. **Access Controls.** The system must use role-based access controls for all user authentications, enforcing the principle of least privilege.
- E. **Transmission encryption.** All data transmissions of DSH PCI outside the contractor's secure internal network must be encrypted using a FIPS 140-2 certified algorithm, such as Advanced Encryption Standard (AES), with a 128bit key or higher. Encryption can be end to end at the network level, or the data files containing DSH PCI can be encrypted. This requirement pertains to any type of DSH PCI in motion such as website access, file transfer, and E-Mail.

- F. **Intrusion Detection.** All systems involved in accessing, holding, transporting, and protecting DSH PCI that are accessible via the Internet must be protected by a comprehensive intrusion detection and prevention solution.

3. Audit Controls

- A. **System Security Review.** All systems processing and/or storing DSH PCI must have at least an annual system risk assessment/security review which provides assurance that administrative, physical, and technical controls are functioning effectively and providing adequate levels of protection. Reviews shall include vulnerability scanning tools.
- B. **Log Reviews.** All systems processing and/or storing DSH PCI must have a routine procedure in place to review system logs for unauthorized access.
- C. **Change Control.** All systems processing and/or storing DSH PCI must have a documented change control procedure that ensures separation of duties and protects the confidentiality, integrity and availability of data.

4. Business Continuity / Disaster Recovery Controls

- A. **Disaster Recovery.** Contractor must establish a documented plan to enable continuation of critical business processes and protection of the security of electronic DSH PCI in the event of an emergency. Emergency means any circumstance or situation that causes normal computer operations to become unavailable for use in performing the work required under this agreement for more than 24 hours.
- B. **Data Backup Plan.** Contractor must have established documented procedures to securely backup DSH PCI to maintain retrievable exact copies of DSH PCI. The backups shall be encrypted. The plan must include a regular schedule for making backups, storing backups offsite, an inventory of backup media, and the amount of time to restore DSH PCI should it be lost. At a minimum, the schedule must be a weekly full backup and monthly offsite storage of DSH data.

5. Paper Document Controls

- A. **Supervision of Data.** DSH PCI in paper form shall not be left unattended at any time, unless it is locked in a file cabinet, file room, desk or office. Unattended means that information is not being observed by an employee authorized to access the information. DSH PCI in paper form shall not be left unattended at any time in vehicles or planes and shall not be checked in baggage on commercial airplanes.
- B. **Escorting Visitors.** Visitors to areas where DSH PCI is contained shall be escorted and DSH PHI shall be kept out of sight while visitors are in the area.

- C. **Confidential Destruction.** DSH PCI must be disposed of through confidential means, using NIST Special Publication 800-88 standard methods for data sanitization when the DSH PSCI is no longer needed.
- D. **Removal of Data.** DSH PCI must not be removed from the premises of the Contractor except with express written permission of DSH.
- E. **Faxing.** Faxes containing DSH PCI shall not be left unattended and fax machines shall be in secure areas. Faxes shall contain a confidentiality statement notifying persons receiving faxes in error to destroy them. Fax numbers shall be verified with the intended recipient before sending.
- F. **Mailing.** DSH PCI shall only be mailed using secure methods. Large volume mailings of DSH PHI shall be by a secure, bonded courier with signature required on receipt. Disks and other transportable media sent through the mail must be encrypted with a DSH approved solution, such as a solution using a vendor product specified on the CALIFORNIA STRATEGIC SOURCING INITIATIVE.
